

## **Lake Elmo Construction Information**

We want to apologize in advance for any inconvenience Lake Elmo's construction project may bring you. We will do everything we can to make sure you have all the information you need to make your drive to our restaurant is safe and favorable.

Throughout construction phases, **we have valet services** available on some days to help make your experience with us easier. Please call the Inn with any questions about parking and valet service locations and availability.

Construction has begun just south of the railroad tracks on Lake Elmo Avenue. Lake Elmo Avenue will not be passable to the south of the railroad tracks. We hope it is open for access by mid-June.

To reach the Lake Elmo Inn from the south, follow detour signs that will take you east of Lake Elmo Avenue to Manning and 10<sup>th</sup> Street, then north on Manning to County Highway 14 (Old Highway 5). You will then be detoured west (left) to Lake Elmo Avenue. The Lake Elmo Inn is located south of County Highway 14 (Old Highway 5) two blocks on the right. See the map showing this detour as well.

Pedestrian access will be maintained to the Lake Elmo Inn throughout these closures. Additional public parking will be available during construction in the parking lot in the southeast corner of Lake Elmo Avenue and 36<sup>th</sup> Street North as well as complimentary valet services provided by the Lake Elmo Inn.

### **Timeline Changes:**

As you are aware, construction doesn't always run as scheduled. Weather and other factors cause unexpected delays. We will keep the information current on our website so you can always check there for the most current updates, and feel free to call the Lake Elmo Inn for details. We appreciate your patience and understanding during this difficult time.
